

# Outline

- UE5 半透明成像效果
- 將嘗試哪些方法修正半透明成像？

# UE4 硬體光追半透明成像

# 真實世界半透明成像

Upside down 效果能否實現？

# UE5 半透明成像

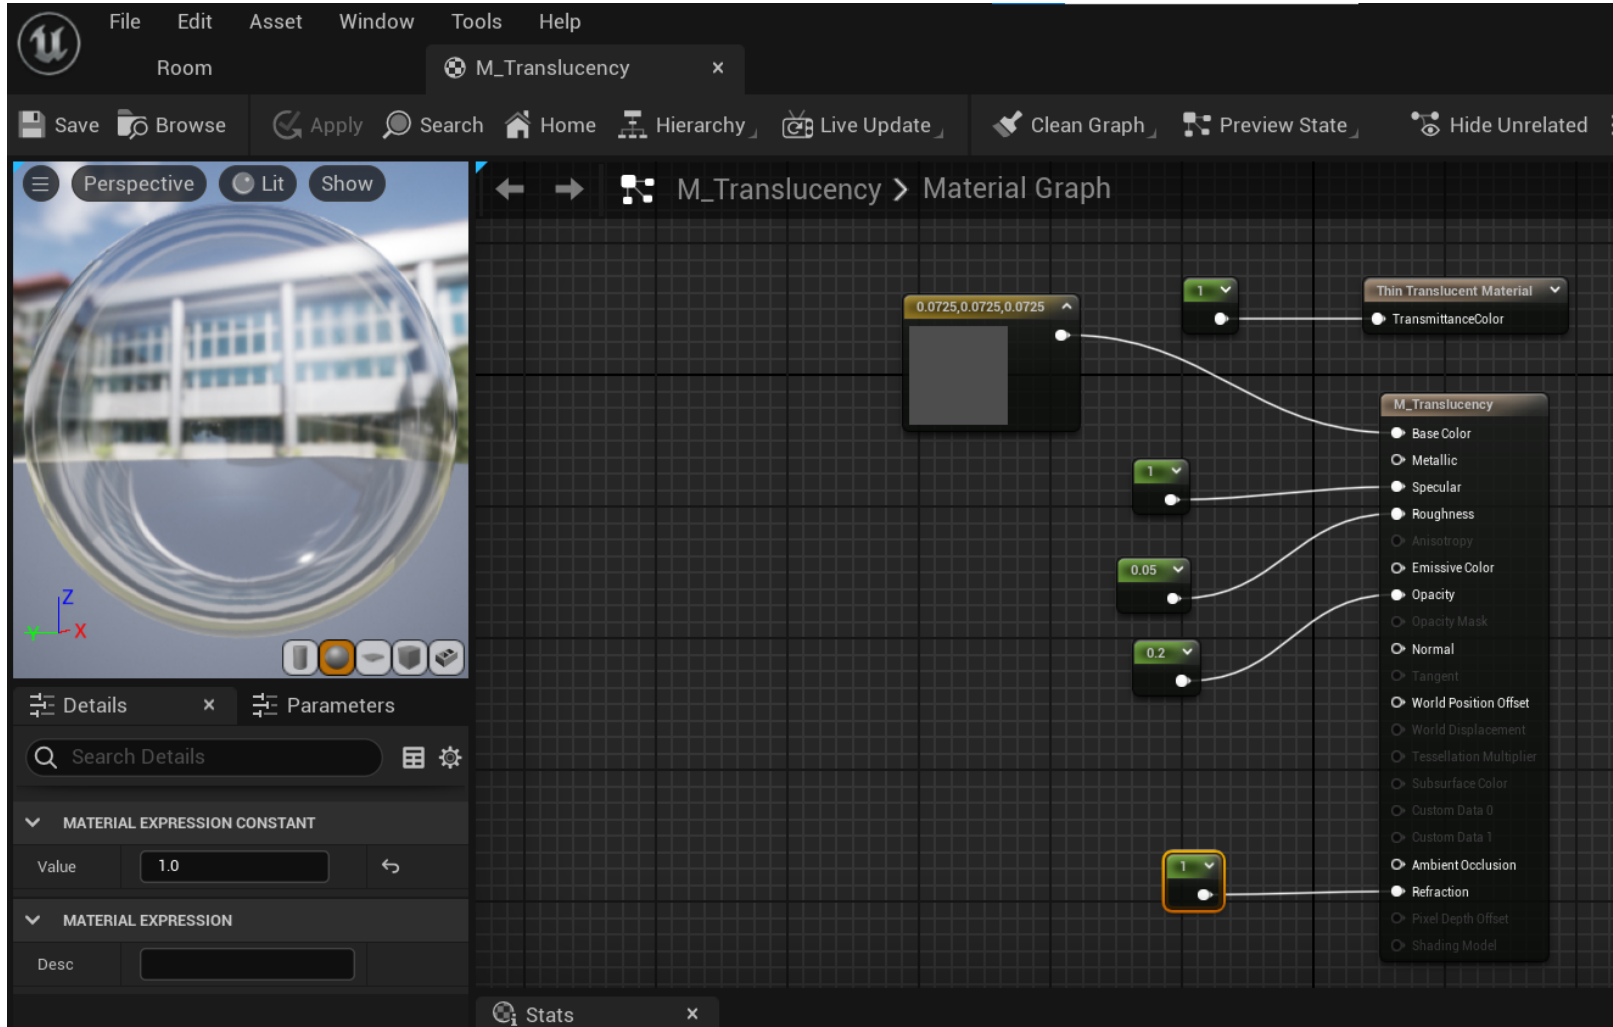

Translucency in UE5 Hardware RT

Translucency in UE5 Lumen

# UE5 半透明材質

## In RealisticRendering Project

# 會嘗試哪些方法？

- Planar reflection

評估：may be expensive

- Sphere reflection capture

評估：unknown

- Dither fake translucency

評估：最常用的解法，抖動產生的效果可能很差

# 會嘗試哪些方法？

- Scene capture 2D feeding into the material  
(using USceneCaptureComponent2D)

評估：極度昂貴可能影響效能

- 其它... BluePrint => make fake reflection and fake refraction(snell's law)

評估：unknown
